

# "HOW ARE THE CHILDREN?"

## Community Based Dialogue

*Let us put our heads together and see what life we can make for our children."*

*-Tatenka Iyotak (Sitting Bull)-*

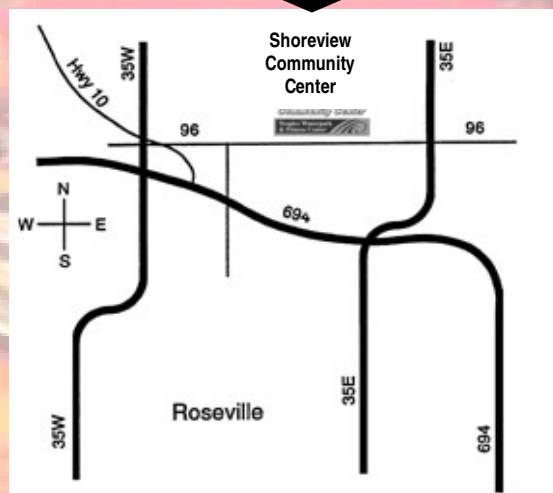

SRFC's\* overall goal in these dialogues is to engage, inform, and mobilize families and community members to develop strategies for supporting children, youth, and families experiencing at-risk circumstances and conditions in the Ramsey County suburbs.

As funding for many family support services is being reduced or eliminated, the number of families in need of a safety net continues to grow. These are important issues for all of our communities yet many people are not aware of the needs in the suburbs. The community dialogue will provide an opportunity for affected families and community leaders to learn from each other and work together to develop plans for mitigating the impact of funding cuts for children, youth and families.
