

Relationship Matters: Promoting Secure Attachment in Young Families

November 7, 2007
9:00 am - 2:00 pm

Relationship drives many aspects of infant development, including cognitive, emotional and social development. This workshop highlights the importance of relationship - - between parents and children and between adolescent parents and the professionals who work with them - - and how these relationships foster the healthy development of children.

This interactive workshop led by Carol Siegel, PhD, LP, includes:

- ➔ An introduction to the infant mental health framework-definition, history and current knowledge about what works
- ➔ Implications for work with adolescent parents and their children
- ➔ Strategies for making programs more relationship-based
- ➔ Interventions and expected outcomes for parents, children and providers

The workshop will be followed by a resource fair and reception

Location:

Center for Families
3333 North 4th Street
Minneapolis, MN 55412

Registration:

MOAPPP member \$40/ Non-member \$75
Registration includes lunch and materials.
Space is limited; please register early.

Limited scholarships are available.

To request a scholarship application, contact moappp@moappp.org

Certificates of attendance will be distributed at the end of the workshop.

Participants self-report continuing education credits to their respective state boards.

Reasonable accommodations for people with disabilities will be provided but must be requested at least two weeks prior to the workshop.
