

Let's Talk Month

October

Let's Talk Month is a community campaign that supports parents in making stronger connections with their children and in talking honestly and openly about sexual health and relationships.

How do I TALK to my kids about the BIRDS and the BEES?

Robie H. Harris to the rescue!

Parents of children from toddlers to teens are invited to this **FREE** event. Award-winning children's book author Robie H. Harris presents her family library on sexual health including *It's NOT the Stork!* *It's So Amazing!* and *It's Perfectly Normal*. These books can help parents talk with their children, no matter what their age, about birth, babies, bodies, families and healthy sexuality.

Q&A and book signing with the author

20% off Robie's books at the event
