As advertisers and merchandisers increasingly target teens, preteens, and even elementary-age children with highly sexualized messages, our students often exhibit behavior, language and dress in schools that present unique challenges to us as educators. Using a variety of scenarios, learn from a master teacher how to confidently turn these uncomfortable moments into important teachable moments. Deborah Roffman has “seen it all” over her 35-year career as a school-based sexuality educator.

Free of charge.

Free CEUs.
