Dads Make a Difference began this journey with **tpt** in November 2008 and we are excited to share the finished product with our friends, colleagues, and community partners. Please join us as we talk about the process, thank those involved, view the half hour program, listen to T. Mychael Rambo perform the song that sparked the title, take your comments, share broadcast dates/times, and talk about next steps including replacing the original DMAD curriculum video from 1994 with a shortened version of this program.

*Enjoy light refreshments and beverages afterward.*

**Please RSVP by Aug 13 to Jan Hayne at 651-222-1622**

**Be There: Dads Matter** – Young people who understand parental responsibility are more likely to form strong families; these families are the backbone of productive, nurturing communities. Explore the importance and the positive impact of fathers. Learn why it is important to be financially and emotionally prepared for child-rearing in order to create safe, stable, and healthy family environments.
