OR Brooke Stelzer brooke@annexteenclinic.org

What is this process?

We'll be using a fun, creative, and interactive process known as "The World Café" (www.theworldcafe.com). This participant-driven process includes a quick introduction followed by three rounds of 20-30 minute conversations. These conversations are "hosted" by your peers. We'll meet at the end as a large group to summarize our discoveries and connect the dots between the separate conversations. YOUR participation makes learning possible!

The meeting facilitator is Waid Johnson, President of Paint the Elephant Enterprises (www.PaintTheElephant.com), and former health educator at CommonHealth Clinic and Northwest Youth & Family Services.
